Important safety instruction

Read carefully.

- Please read the manual and follow the safety instructions.
- Please only use the power cord and power adapter that are in accordance with local power supply. Correct operating voltage is marked on the product.
- Do not place any naked flame sources, such as lighted candles, on the product.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions. Do not place the product in a confined space, such as a bookcase or similar unit, that may impede ventilation.
- Do not place any heat sources, such as radiators, heat registers, stoves, or other devices that generate heat, on the product.
- Do not place the product in an environment prone to excessive dust and vibration.
- Do not place the product in an environment with open flames and high temperature.
- Do not place the product in an environment with moisture, high humidity, or extreme cold.
- Do not place the product in an environment prone to liquid splashes and drips. Do not place any liquid containers, such as vases, on the product.
- Only use accessories/attachments specified by the manufacturer.
- Unplug the product during lightning storms or when it is unused for long periods of time.
- Do not dismantle the product. Do not insert any objects into the product through the ventilation openings or other openings on the product. Do not disassemble the power cord or power adapter.
- Do not touch the power cord or power adapter with wet hands.
- Do not pull on the power cord when disconnecting the power cord from the outlet. Hold the power adapter when disconnecting the power cord.
- Do not place the product where it may be difficult to disconnect the power adapter.
- Do not use damaged power cords (including accessory power cords), plugs, or loose sockets.
- Do not use the product if the power adapter, power cord, or the product is damaged. Do not expose the product to water, rain, or other liquids. Do not place the product in a wet environment.
- Do not place the product on an unstable surface.
- Do not place heavy objects on the product.
- Do not place the product in a place where children can reach it.
- Do not place the product in a place where children can reach it.
- Do not place the product in a place where children can reach it
